-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to because
2. The figure 2 should more distinctly show latch feature. Compare to Lampert, figures 5, 6 parts 120, 130.
3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2, 4-6, 8- 9, 11-12, 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Tharp (U. S. Patent 6,174,190).

6. Regarding claims 1, 4-5, 8, 11,14, Tharp, see figures 2-3, 9, discloses device for hooking/unhooking at least one connector of the type connector 5 to be inserted in a socket placed in front panel of an electronic module 18 and the connector comprising a retaining latch 16 for engagement in the socket, wherein the device comprises a slide with a "V" shaped protrusion, the slide 55 being placed front side of the module aside the socket, in such a position as by pushing the slide from the front side of the module, the "V" shaped protrusion 90 pressing the retaining latch and the connector becoming unhooked.

7. Regarding claim 2, Tharp, see figures 2-3, 9, discloses the slide 55 is guided in an aperture guide on the front side of the electronic, module, close to the socket.

8. Regarding claims 6, 9, 12, 15, Tharp, see figures 2-3, 9, discloses an aperture guide on the front side of the electronic module close to the socket, wherein the slide is guided in the aperture guide.

Allowable Subject Matter

9. Claims 3, 7, 10, 13, 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. None of the reference discloses a spring in rear part of the slide connected to the slide and to the electronic module, the spring pushing back the slide in a rest position when released.

Response to Arguments

11. Applicant's arguments with respect to claims 1-2, 4-6, 8-9, 11-12, 14-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
